WHO SHOULD ATTEND

This program is intended for all lawyers.

Visit LESA.org for full program details and registration options.

Advising Small & Family Businesses

Do small and family businesses really have different challenges than other businesses? Though many businesses face similar issues, the nature of small, closely held, or family businesses are such that lawyers should consider additional factors when advising clients.

Having a well-structured unanimous shareholders' agreement is perhaps more important when dealing with family members or friends. Understanding succession or retirement challenges, deferred income arrangements, and estate freezes all help business owners prepare for the future. Family conflicts can have far-reaching business consequences. Some small business owners struggle to understand that their objectives and expectations may not align with tax or other regulatory schemes.

Develop a thorough understanding of challenges common to small and family businesses. Explore strategies to address these challenges and learn practical tips, including how to broach trickier topics with clients.
